Day 01

DAY 01: ARRIVAL IN QUITO

Upon arrival at Quito airport, you will meet with your guide, who will transfer you to your hotel. Situated in a circle of Andean peaks, Quito is the world's second-highest capital, with arguably one of the finest settings in the world. Originally settled by the Quitu tribe in the first millennium, Quito was an important part of the Inca Empire, before being destroyed and re-founded by the Spanish conquistador Sebastián de Benalcázar in 1534. The colonial centre – declared a World Heritage Site by UNESCO in 1978 – is one of the largest and best-preserved in Latin America. It is home to excellent museums, churches, and art galleries.

DAY 02: HISTORICAL CENTER - THE MIDDLE OF THE WORLD LATITUDE 0 0' 0"

Early in the morning and right after breakfast, you and our local guide start the travel tour at the downtown area, well known as Quito Colonial. You start your journey along the “churches ? trail” by visiting first the cathedral. In the cathedral, you learn about its history and the guide explains the internal design of the cathedral such as the “mudejar ?s” influence on its first stage, the area with 3 longitudinal wings, and a small transversal wing behind the choir.

After finishing the round in the cathedral, we have a short walk to the church La Compania along with the guide’s expertise. The guide will enlighten you with the history and fun facts of every place, in this case La Compania. Its decoration is based on muslin features and the altars are covered by gold leaf along with faces and birds carved. It is considered as an architectonic jewel in the American baroque style. It also has a religious value, because the rest of Saint Marianita of Jesus is located there, and according to some, she was the protector of the city.

Afterwards, we visit San Francisco, which is famous for the Cantuña story. San Francisco is well known due to its legends and stories, which make the place culturally wealthy. At the San Francisco church, there is a local hand craft store called Tianguéz, where you can find a variety of items from the Ecuadorian culture. Here, you can buy postcards, books, Ecuadorian music, natural products, and even get a coffee with Humitas (which is sweet corn tamale) offered at the local Café Cantuña located at the Plaza San Francisco.

Around midday, you head to “Mitad Del Mundo”, a monument at the equator line that passes through our country. You may choose to either visit the Ethnographic or the Inti Ñan Museums, both located near the monument. Along the way, we will stop for a traditional Ecuadorian lunch (optional and not included). After the tour, you will return to your hotel. Overnight.

DAY 03: CITY TOUR

Your day starts exploring the bustling streets and squares of the largest historical centre in the Americas in a unique adventure for the senses. Together we will uncover traditions, history and local life of this enchanting city. Our route takes us through the street of the seven crosses, we enjoy views of the facades of old colonial homes and churches on our way to the main Square or independence Square in which is located the government Palace. As we continue through these historic streets we get a chance to meet a local family that makes their living by creating traditional sweets called Colaciones!

We walk deeper into the heart of Quito, passing by historic buildings made of volcanic stones. The stunning views of the sculpted Compania Church will leave you longing for a visit of its interiors. To learn more about this and other churches we make our way to the workshops of the master craftsmen from “The Escuela Quiteña”. These artists keep the secrets of the colonial art in Quito’s churches and museums, they are the people who have been in charge of restoring the altars and painting in these historic gems. They will share their secrets with us and allow us to try our artistic skills to create our very own crafts.

Our next stop will be at La Ronda, is a historical and bohemian neighbourhood of the city, it is a traditional street, associated with the art, crafts gastronomy and fun of Quito, it is the oldest street in Quito. Over there we will also enter at a traditional coffee shop to try interesting ice cream flavours or a traditional sweet (depends on the weather).

Finally you will visit "Panecillo" hillside with its breath-taking views of the old and modern city surrounded by the rolling Andes Mountains. And on the top is located one of the most iconic monument of Quito, the Panecillo Virgin. It is made with nearly seven thousand pieces of Aluminium and what makes this representation so unique are the wings, is the only Virgin Mary that has wings in the world.
