Day 04: Biking in Cayambe Coca

Travel upon a precious, exclusive road with no traffic in this high region. This is a special experience because this ecological reserve is very remote and pristine with little influence from people. While descending from 13000 ft (3962 m) to 9000 ft (2743 m), enjoy the views of the Andean fields and witness the surroundings of grassland and colorful flowers, with occasional deer and rabbits crossing. In the morning we will do a hiking exploration in the nearby Cayambe Coca Ecological Reserve in the cloud forest. Here there are beautiful flora that include colorful orchids, and if walking slowly and quietly, you may see some beautiful birds too. Later we will travel across the Andes to stop by the equatorial line to witness this great attraction and to stand on both hemispheres at the same time. Your guide will suggest a place to eat before going to the Otavalo Indigenous Market and spend some time shopping and learning about this ancient culture that is still lively here today. In the late afternoon we will be transferred to the hacienda and enjoy a welcome cocktail and a delicious dinner.

NOTE – This morning if you do not want to go hiking, you can book a spa treatment and pay directly to the Hotel, make sure you organize this the night before just by calling from your own room to the Spa.

Hands on cultural experience – Sustainable Sacha WarmiKuna women project.

For lunch, we will head to Pijal, a small village located in the heart of the Andes to visit one of the sustainable projects called Sacha WarmiKuna (women from the mountain). This is one fantastic effort developed by the local women with the main purpose to support their families and encourage the

position of the women in the local society, providing them an alternative side work beside housekeeping, as a new option for an income. Once at the project you will experience an unforgettable cultural encounter, immersing yourself in the true spirit of the South-American woman and their skills for textiles and a deep culinary knowledge coming from past generations. You will be part of the preparation of “Aji”, a local spicy salsa which is part of their identity, you will also share precious time with them and a tasty traditional lunch in which local women have used the fresh products harvested the same day from the surrounding organic fields. Later we will learn more about the weaving process of their textiles. Don’t miss the amazing opportunity to have the chance to give back, by buying handmade scarfs here. Later we will arrive at the beautiful, historical hacienda of Pinsaqui where we will stay overnight. Enjoy a typical Andean cocktail as welcome, and learn about the history of this place.

Day 06: Biking into Pululahua

Today we drive for two hours heading south on the Pan-American highway, the first stop will be in Tabacundo town to see the rose shops. Most of the people in this town depend on the rose farms, they are considered among the top 5 largest businesses in Ecuador. After, we continue to the dry valley of Guayllabamba and stop for tasting the local fruit such as chirimoya.

Our bike ride will start at the small village of Yunguilla and will enter the Pululahua Crater on a dirt road into the beautiful Cloud forest. There is actually a geo-botanical reserve that is taking place inside the collapsed caldera of this old volcano. According to the experts, an immense eruption occurred here thousands of years ago and left these great formations, specifically the lava domes in the center of the volcano. While descending on our bikes, every curve will offer a chance to enjoy the amazing scenery, and the two-wheel adventure will finish in the center of the caldera. We will have lunch prepared by our driver and guide, and in the afternoon it is optional to hike out of the volcano, otherwise, we continue back to Quito.
