Constructed in 1606 this church and monastery are located at a height of 140masl from where one can enjoy 360° views of the city and the sea as well as the port zone, one of the most important in the Caribbean. Continuing to the San Felipe Fortress, erected in honor of the poet from Cartagena, Don Luis Carlos López, made famous for his sonnet “A mi ciudad nativa” It was built on San Lázaro hill to defend the city from pirate attacks. Walk around the fortress and learn how the castle was constructed, the engineering feats, the tunnels, underground galleries and passageways. Then continue on to the Ciudad Vieja (old city) to visit the Convent and Church of San Pedro Claver which was built in the middle of the XVII century and owes its name to the “apóstol de los esclavos”. Lastly, continue to the handicrafts zone of the Bovedas, a collection of archways built into the city wall of Cartagena and that were used until the end of the 1700s to house armaments and then later as a prison in the XIX century.
