Day 02: Bogotá – Half Day City Tour Bogotá

Enjoy a half day visit to the historic centre of Bogota known as La Candelaria. This archaic suburb has great significance in the country's history due to its cultural heritage and is also a great example of Spanish colonial time architecture. Visit the main square Plaza de Bolivar, where a statue of the great emancipator Simon Bolivar is located. The plaza, originally called the Plaza Mayor, was used for civil and military purposes such as a marketplace, a bullring and it was also the place where many executions were held. The Cathedral, on the eastern side of the plaza, is constructed on the same spot where the first church was built in Bogotá in 1539 and houses an important collection of religious artifacts such as textiles and artworks, collection that has been built over four centuries. The Capilla del Sagrario is located just beside the Cathedral and is a gem of religious architecture, it houses valuable pieces of colonial religious art by Gregorio Vasquez de Arce y Ceballos.

The Capitol, built between 1847 and 1926, shows its renaissance and neoclassical influences with its carved stonework and tall columns and, it was the first example of republican civil architecture. The central area of the Capitol, known as the Elliptic Hall, is where congress meets and is the actual chamber for politicians and the Senate. In the internal squares are busts of former presidents such as General Tomás Cipriano Mosquera, president over four terms, and Rafael Núñez, the composer of the Colombian National Anthem. Around the Plaza de Bolivar are buildings such as the Palacio de Justicia, the Mayor of Bogotá's offices called the Edificio Liévano, the oldest school in the county called San Bartolome and the Casa de los Comuneros, named after the leaders that participated towards the end of the XVII Century in some of the first movements towards independence from Spain and the formation of the Republic. The visit continues with the Botero Museum, a colonial house exhibiting some of Fernando Botero's works of art and in addition pieces from his own personal collection that includes works by Picasso, Renoir, Dalí Matisse, Monet and Giacometti. Next is the Gold Museum which has a permanent exhibition of some 32,000 pieces of gold, 20,000 stones, ceramics and textiles all precious to the Quimbaya, Calima, Tayrona, Sinu, Muisca, Tolima, Tumaco and Magdalena cultures. The Gold Museum is considered one of the most important museums of its type internationally and it has been operating since 1939. In 2007 it underwent a complete renovation making it possible for visitors to enjoy an interactive experience. The Museum belongs to the International Network of Museums (ICOM). Overnight stay.

Day 06: Medellín - Half Day Medellín's Social Transformation Tour

After breakfast, start the transformation tour. Visit those places that best represent the social transformation that has taken place in Medellín. The tour will show the symbolic areas of Medellín from the 1980s, when the city was one of the most dangerous in the world, up to today many projects that fostered the city's change.

Enjoy an exciting tour through the history and present of Medellín and learn more about the transformation of this fascinating metropolis. 20 years ago, Medellín was one of the most dangerous cities in the world. Back in the early 90s, when the hunt for Pablo Escobar took place, the head of Medellín's drug cartel was at its peak. Thus, the reign of "El Patrón" came to its end. Until the turn of the millennium the struggles about Escobar's successor continued, but since 2002 Medellín began to change. Intelligent local politicians started to invest heavily in infrastructure and public education. Today the "City of Eternal Spring" is one of the most innovative metropolises in the world. Visit the barrio San Javier, which used to be one of the most unsafe suburbs of Medellín. Located some 7km from the city centre, it is a clear example of the social transformation that has taken place in the last few years. Arrive here by the metrocable car that joins the north-east area with the city centre, which has been life changing to many of the inhabitants of Medellín. Learn more about the city's transformation after the death of Pablo Escobar and also get to know the innovative transport-system in the poorer neighborhoods at first hand. Explore Medellín's newest invention: the electric stairways of the district Comuna 13, discover stories about its past by visiting the most important places marked by historical events and see some graffiti that symbolizes a form of expression of the community. Here it is possible to have a beautiful view over the city from the balconies of San Javier. Then, go on to La Plazoleta located in the city centre, in an area that fell into decline in the 1980s and today houses 23 sculptures of Fernando Botero, donated by this famous local artist in year 2000. Since that time, the city has undergone a social and cultural transformation around these works placed in a public space. Back to the hotel. Free afternoon. Overnight stay.
