The palace was built during the reign of Abdullah bin Rashid in the year 1895 A.D. to serve as a military garrison for the Abdullah bin Rashid army. His Majesty King Abdulaziz, the father of the nation today, captured the fort in 1902, making this fort the birthplace of the 3rd Saudi Kingdom, the modern one we live in. Day 04: MONDAY - HA'IL – JUBBAH – AL ULA (580 km)

Breakfast at the hotel. This morning, we will start our journey to Jubbah, which lies on an ancient lake. Several archaeological sites of human settlement from the Middle Palaeolithic period were found around the margin of the paleolake. Jubbah is surrounded by large sandstone outcrops that are filled with ancient petroglyphs and inscriptions. Jubbah benefited from past humid phases that turned the arid Arabian Peninsula into a savannah similar to what is found today in Africa. During the last humid period that took place from the 10th to the 6th millennium BCE, the African monsoon rains filled rivers and lakes where wildlife thrived. If the animals that used to live there became distinct because of the desertification that started during the 6th millennium BCE, some men fixed their presence in Jubbah thanks to carvings of aurochs, cheetahs, lions... Those drawings are still visible today on several sandstone outcrops like the Jebel Umm Sanman. Jubbah and Shuwaymis, the other major carving sites of Hail Province, were listed as UNESCO World Heritage in 2015 for their numerous petroglyph panels and rich inscriptions. The region between Ha'il and Al-Ula offers some of the best desert experiences in the world ... On our way, we will pass through the famous desert of Nefud Al Kabir, which literally means the "great extent of dunes". It is 290 kilometres long and 225 kilometres wide, with an area of 103,600 square kilometres. Lunch en route. We continue our route to the famous Al Ula area. Upon arriving,

we will visit Jebel Al-Fil, also known as the "Elephant rock". Early evening, we arrive and check in at our beautifully located hotel, our base for the night. Dinner & overnight in Al-Ula.

Day 05: TUESDAY - AL ULA

Breakfast at the hotel. Al-Ula is an ancient oasis that has been inhabited for the last 7000 years, as testify ancient carvings in and around the oasis. During the 1st millennium BCE, the city of Dedan developed thanks to its strategic location on the frankincense trade road to become one of the oldest Arabian kingdoms that ruled over most of what is today Tabuk and Madinah provinces. During the 1st century BCE, the Nabatean people, coming from Petra, settled 30 kilometres north of Dedan in Al-Hijr, where they built 94 monumental tombs similar to the ones they dug in Petra. Today, we will start our journey with a visit to the famous Hegra (Madain Saleh), which is the first site of Saudi Arabia that was listed as a UNESCO World Heritage site. Madain Saleh, whose original name was Al-Hijr or Hegra in Greek, is the southernmost important city of the Nabatean Kingdom that flourished thanks to the caravan trade between the 2nd century BCE until the Roman conquest in 106 CE. It is the second richest Nabatean city in terms of monumental tombs with 94 decorated funeral monuments, including some of the most vibrant and well-conserved architectural prowess of the Nabatean builders. We will lead you through this fascinating site and reveal to you the secrets of its tombs, ancient inscriptions, stone structures, and many others. Our visit will be followed by a lunch in the city. Then we get a glimpse into AlUla's not-so-distant past on the AlUla Old Town Tour. We will go through AlUla Old Town, where pilgrims, travellers and permanent settlers congregated through the ages. Inhabited from before the 12th century up until the early 1980s, AlUla Old Town offers researchers unique oral histories and living memory

that the area's other heritage sites cannot. Return to the hotel. Dinner & overnight in Al-Ula.
