This old port that included administrative buildings, a fort, and a market, was built by the Ottomans in the 17th century has been partly renovated recently. We will then head towards the desert of Al-Ahsa to explore it, starting with a stunning viewpoint on one of the lakes located just few kilometres east of Al-Hofuf that reveal the vast water resources of the grounds of Al-Ahsa. This special one is called the Yellow Lake because of the colour of the surrounding dunes. This landscape made of flat grounds rich with water in between dunes is typical of the Eastern Province and is called sabkha. They are particularly impressive 500 kilometres to the south in the vastest sand dune desert in the world called the Rub' Al-Khali. We will drive through dunes and sabkhas, before reaching our destination in Hofuf. Set in an expansive oasis with over 2 million palm trees, Al Hofuf ranks among the world's leading date producers.
