Day 03

Day 03: Hail-Jubbah-Hail Departure

Breakfast at the hotel. This morning, start very early your journey to Jubbah that lies on an ancient lake. Several archaeological sites of human settlement from the Middle Paleolithic period were found around the margin of the paleolake. Jubbah is surrounded by large sandstone outcrops that are filled with ancient petroglyphs and inscriptions on the rock face. Jubbah benefited from past humid phases that turned the arid Arabian Peninsula into a savannah similar to what is found today in Africa. During the last humid period that took place from the 10th to the 6th millennium BCE the African monsoon rains filled rivers and lakes where wildlife thrived. If the animals that used to live there became extinct because of the desertification that started during the 6th millennium BCE, some men fixed forever their presence in Jubbah thanks to carvings of aurochs, cheetahs, lions... Those drawings are still visible today in the sides of several sandstone outcrops located on the western side of the paleolake like the Jebel Umm Sanman. Jubbah and Shuwaymis, the other major carving site of Hail Province, where listed as UNESCO World Heritage in 2015 for their numerous petroglyph panels and rich inscriptions. In the afternoon you will drive back for your departure. You can return the car, handover your car to the BUDGET team , and direct yourself to the airport or train station.
