Day 04: (Monday) Hail-Jubbah-Al Ula (580 Kms)

Breakfast at the hotel. This morning we will start our journey to Jubbah that lies on an ancient lake. Several archaeological sites of human settlement from the Middle Paleolithic period were found around the margin of the paleolake. Jubbah is surrounded by large sandstone outcrops that are filled with ancient petroglyphs and inscriptions. Jubbah benefited from past humid phases that turned the arid Arabian Peninsula into a savannah similar to what is found today in Africa. During the last

humid period that took place from the 10th to the 6th millennium BCE the African monsoon rains filled rivers and lakes where wildlife thrived. If the animals that used to live there became distinct because of the desertification that started during the 6th millennium BCE, some men fixed forever their presence in Jubbah thanks to carvings of aurochs, cheetahs, lions... Those drawings are still visible today on several sandstone outcrops like the Jebel Umm Sanman. Jubbah and Shuwaymis, the other major carving site of Hail Province, where listed as UNESCO World Heritage in 2015 for their numerous petroglyph panels and rich inscriptions. The region between Ha'il and Al-Ula offers some of the best desert experience in the world ... On our way, we will pass through the famous desert of Nefud Al Kabir which literally means the "great extent of sand dunes". It is 290 kilometres long and 225 kilometres wide, with an area of 103,600 square kilometres. Lunch at leisure. We continue our route to the famous Al Ula area. Upon arriving we will visit Jebel Al-Fil also known as the "Elephant rock". Early evening, we arrive and check-in at our beautifully located hotel, our base for the night.
